

CX-PSO HELPS SURGICAL CARE PROVIDERS IMPROVE QUALITY AND SAFETY BY ENABLING THE COLLECTION AND AUTOMATED ANALYSIS OF SURGICAL DATA, UNDER FULL FEDERAL PROTECTION.

HOW CX-PSO WORKS

COLLECT

Using qvident, clinical data is collected from EHR, PACS, and other systems in a secure and protected environment

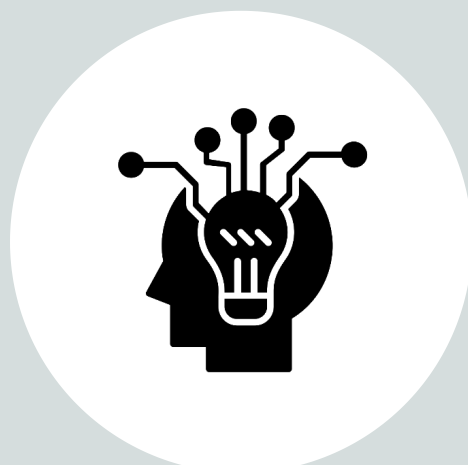

ANALYZE

Data Analytics generated through automated dashboards, married to AI and clinical expertise creates learning opportunities

LEARN

Analytics enable data-driven insights and other opportunities for improvement

IMPROVE

IMPROVE SURGICAL OUTCOMES

Patient Safety Data aggregation and visualization leads to a new standard of surgical population health

ENHANCE TECHNICAL SKILLS

With optimization of best practices and safety protocols, clinicians can reduce variability of performance and outcomes
